Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE three MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 5, 2007 has been entered.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-7, 10-15, and 18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant does not teach, "at least one frozen vegetable added to said cooked vegetables" to form a mixture.

The specification teaches "the use of fresh, frozen, or canned vegetables" (page 13, line 18 and page 15, lines 14 and 15). Applicant does not teach the addition of a frozen vegetable to cooked vegetables.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-7, 10-15, and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hara (JP 61231958), Kazutada et al (JP 55007013), Masahiro et al (JP 3112454), and Oliver (GB 2294625) for the reasons set forth in rejecting the claims in the last Office action. The amendments to the claims are not seen to influence the conclusion of unpatentability previously set forth.

Hara (JP 61231958) disclose a yogurt comprising vegetable (see abstract).

Kazutada et al (JP 55007013) disclose a yogurt comprising vegetables (see abstract).

Masahiro et al (JP 3112454) disclose yogurt comprising vegetables (see abstract).

Oliver (GB 2294625) discloses a yogurt comprising vegetables such as tomatoes, carrots, corn, and potatoes and their purees (see entire document, especially pages 1 and 3).

The claims differ as to the recitation of specific cultures, percents, and a cooling step.

The disclosed yogurt cultures are notoriously well-known in the art and used for their art-recognized purpose.

In the absence of a showing to the contrary, the amounts claimed are seen to be no more than a matter of choice, dictated by preference, and well-within the skill of the art.

It would have been obvious to a person of ordinary skill in the art, at the time the invention was made, to use conventional yogurt cultures and the claimed percents in that of Hara (JP 61231958), Kazutada et al (JP 55007013), Masahiro et al (JP 3112454), or Oliver (GB 2294625) because the use of conventional cultures and preferred amounts is well-within the skill of the art.

Once the art has recognized the addition of vegetable products to yogurt the use and manipulation of types of vegetables and percents employed is merely a matter of choice and well-within the skill of the art.

Applicant's arguments filed March 5, 2007 have been fully considered but they are not persuasive.

Applicant argues that the prior art does not teach the claimed percent and that the claims omit the use of a stabilizing agent.

Applicant does not exclude additional components of the prior art.

In the absence of unexpected results, the use and manipulation of vegetables and percents is well-within the skill of the art and merely a matter of choice.

The prior art clearly teaches the addition of vegetables to yogurt as is claimed. In the absence of a showing to the contrary, Applicant is using known components to obtain no more than expected results.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
